Relocation Specialists, Inc.

Managing Change. Exceeding Expectations.

Relocation Specialists, Inc. (RSI)'s success rate is attributed to always having **our client's best interests in mind**. We are the best value and most cost-effective solution for transition planning because of our large project experience coupled with our internal small business mentality. RSI's capabilities have been especially tailored and developed to meet the exceptional service needs of healthcare, large commercial, government, and corporate organizations. **We offer turnkey solutions that ensure the hard work invested by the various stakeholders realizes a premium return on investment.**

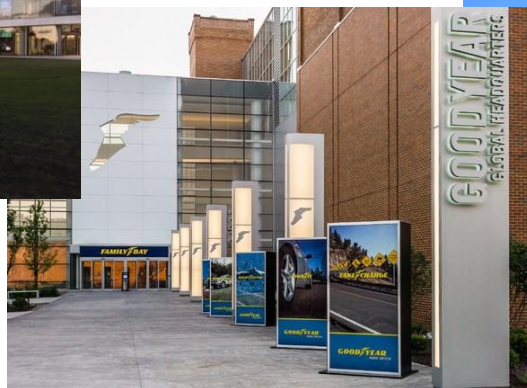

RSI's staff has a team mentality; it boasts a variety of flexible, motivated, and experienced consultants. Our extensive industry knowledge allows us to understand the difficult decisions made during a transitional period and how those decisions impact the success of any valuable project. RSI's role is to develop, communicate, facilitate, and implement a well-designed plan.

We've managed over **45 million square feet** of space and **\$1 billion of FF&E** since our inception in 1990. We choose to **anticipate challenges** and retain a comprehensive set of solutions to bear for your project success.

Our professionals work to exceed the expectations of our clients and focus on providing solutions to the complexities that surround a facility in transition.
